Best management practices for applying Enlist Duo® herbicide

Keep this quick-reference guide handy when you're out in the field. And be sure to always read and follow label directions and the latest Enlist™ *Product Use Guide* when applying Enlist Duo® herbicide. That's the best way to get effective weed control and on-target application.

Program approach

Use Enlist Duo as part of a program approach in Enlist™ crops.

PREEMERGENCE
Residual herbicide

POSTEMERGENCE
Enlist Duo® herbicide

Tank mixing

Find the most current list of tank-mix products at EnlistTankMix.com.

APPLICATION RATE

WEEDS 3" TO 6" TALL	GLYPHOSATE-RESISTANT OR HARD-TO-CONTROL WEEDS
3.5 pt./A	4.75 pt./A

Nozzle selection

Only use nozzle and pressure combinations listed on the Enlist product label.

Boom height

24" or less above the crop canopy

Spray volume

10 to 15 gallons per acre

Wind

3 to 10 mph; not to exceed 15 mph
