

TeeJet® 834 Sprayer Control

The TeeJet 834 is a convenient and fully automatic sprayer control. Designed to be easy to use and reliable, the 834 control system is ideal for applicators who want the precision of computerized rate control without the complexity of more sophisticated systems.

Features:

- Compact size for convenience and easy mounting.
- Rugged aluminum construction symbolizes quality construction and reliability.
- Simple programming with only five values needed.
- Operating tips on the front panel make it convenient to recall programming steps.
- Manual mode is available for special application needs.

How to Order

PART NUMBER	DESCRIPTION
90-50014	Core Kit, 5-switch console (pressure based, US units), cables, brackets and pressure sensor
90-50015	Core Kit, 5-switch console (pressure based, metric units), cables, brackets and pressure sensor

Note: Above kits do not include speed sensors, regulating valves or shutoff valves. See Sensor, Regulating Valve and Shutoff Valve sections of this catalog for sensor and valve options to fit your system.

TeeJet® 834-P Sprayer Control

The 834-P is specially designed for use on smaller sprayers with 12-volt electrical product pumps. Rather than controlling a regulating valve, as most spray controllers do, the 834-P simply controls the pump RPM to change the application rate. Built around the easy-to-use 834 controller, the 834-P will give you accurate control with minimal up-front set-up time. Simple plumbing and setup make this an ideal control system for ATV sprayers and other compact mobile sprayers.

Features:

- Simple programming and setup.
- Pressure sensor-based control means easy installation.
- Clear display shows application rate, system pressure and speed.
- 25-amp capacity for use with larger pumps.

How to Order

PART NUMBER	DESCRIPTION
90-50225	Core Kit (includes console, mounting brackets, cables, booster module, pressure sensor, proximity speed sensor and manual)
75-50048	Console only
